Our Centres of Excellence

The School of International Hotel and Tourism Management

The HTMi School of International Hotel and Tourism Management provides high quality education, training and work internships to all students. Students gain Swiss-style diplomas for education and for training, followed by a Bachelors, Masters or MBA degree from universities with a long-standing tradition for excellence in degree level education, all taught in English. The Bachelors degree is awarded by the Ulster University Business School; the Masters degree is awarded by Edinburgh Napier University, and the MA and MBA degrees are awarded as HTMi International Hospitality University Degrees Switzerland. HTMi and its courses have achieved the Swiss EDUQUA education quality accreditation, officially recognized by the Swiss Government, and have accreditation from BAC (British Accreditation Council) from the UK. The undergraduate courses at HTMi have education quality accreditation from the The Institute of Hospitality.

HTMi students experience the famous Swiss holistic education system of blended teaching, training, internships and professional development. This is in full support of our HTMi Mission: “Come as a Student, become a Manager.” Our aim is to inculcate the values required to become a hospitality professional and an aspirant manager, derived from the principles of being successful in the hospitality industry; greeting and hosting people; being courteous and polite; being well groomed with proper deportment; being able to integrate with many different cultures; effective communication and use of common language; respect and integrity; being a lifelong and active learner; reflection and self – improvement; and striving for excellence.

A key aspect of our academic life is the integration of Apple iPad technology and our integrated HTMi teaching and learning platform.

Management Training Programme

There are many exciting career opportunities for our graduates with excellent interpersonal skills and who display professional behaviour. International hotel company recruiters are seeking graduates who are keen to work hard and who have a blend of training and education in all aspects of hospitality operations and management.

Since HTMI is located in a real Swiss hotel campus, students and teachers have excellent training facilities including Swiss a la carte and banqueting restaurants, production and development kitchens, hotel bedrooms, front office training centre, events centre, administration centre, culinary centre, Swisstouches Café, bar, night club and the open-air Terrace Lounge. There is also an Apple computer lab for front office Opera training and hotel business planning.

A key part of the certificated training programme at HTMI is having first hand experience of team work, something that can't be learnt in a classroom setting. Throughout our courses, we provide the necessary professional knowledge and skills and inculcate and develop the correct attitudes for managerial competence and career development. The goal is to give all students a full management training programme recognized by five-star international hotel companies before students graduate, fulfilling our mission, "Come as a Student, become a Manager."

Innovation is our DNA, and many of our graduates have gone on to successfully launch their own businesses. A key part of holistic learning is Soerenberg Concepts and Enterprises, an entrepreneurial challenged based project, where students are required to create new brands for restaurants, hotels, resorts and other hospitality businesses.

In 2018 HTMI created a new and first in the international hospitality education sector: World Hospitality Student Championships. This allows excellent students from quality hotel schools globally to compete to become World Champion in service, housekeeping, front office, culinary, barista, beverage and more.

To apply, students must complete an HTMi application form and enclose: 5 passport size photographs; copies of school certificates or diplomas awarded; and work testimonials (if any).
